

United Way's Laurel's Little Diaper and Hygiene Bank is a place for families with babies and other community members to access essential items to help keep children and themselves healthy, comfortable, and cared for. Diapers and menstrual products are essential needs, and these items aren't always affordable or easy to access.

Through United Way's Annual Community Diaper and Hygiene Drive, along with generous in-kind and monetary donations from community members and local organizations throughout the year, your support helps supply diapers, wipes, diaper cream, and other necessities to income-eligible families in Portage County. The diapers provided are intended to supplement a family's needs by helping cover one-third of a month's supply per child while the menstrual products are intended to provide coverage for one month.

Items are distributed to community partners and at Laurel's Little Diaper and Hygiene Bank and then shared with income-eligible families.
